# Reaching the Russian Trade

THE **RUSSIAN AMERICAN MESSENGER** is the first and only monthly Industrial and Trade magazine in America, printed in the Russian language, and widely circulated throughout the entire Russias.

The aim of the **RUSSIAN AMERICAN MESSENGER** is to place American manufactures on the Russian market in the most direct and advantageous manner, and to overcome the lead gained in that immense field by the efforts of other nations.

**RUSSIA** looms preeminently as the world's vastest and most promising market. It is the market not only of today, but of **TOMORROW.**

**MR. JOHN HAYES HAMMOND'S** recent journey to Russia, and his experiences there were a revelation to the American manufacturers. An Empire of tremendous resources and incalculable possibilities has been left almost untapped by American manufacturers. Those who have cultivated it have found it more than worth while, as is shown by the record of the International Harvester Company.

The **RUSSIAN AMERICAN MESSENGER** intends to *emancipate* the American manufacturer from the handicap of selling to Russians through the mediation of his German and English competitors.

In pursuance of this policy the **RUSSIAN AMERICAN MESSENGER** has developed a unique trade and publicity organization, and extends the following remarkable facilities to its advertisers:

For the promotion of Russian-American trade relations, a **RUSSIAN TRADE INQUIRY OFFICE,** under the management of foreign trade experts has been established by the

# *RUSSIAN AMERICAN MESSENGER*

Advertisers and subscribers are entitled to the following facilities either free, or at cost:

(1) *Lists of customers in Russia.* These are not compiled from any directories, but are live lists, supplied by correspondents in Russia, and may be furnished so as to be pasted direct on envelopes or wrappers.

(2) *Financial reports* on firms and individuals in Russia.

(3) Reports on prospects of introducing any line of American goods into the whole or special sections of the Russian Empire.

(4) *Russian translations;* Special attention to catalogue and technical work. Prices as low as consistent with high grade work.

(5) *Advertising in Russia.* Planning and directing publicity campaigns.

(6) *Advice* on Russian shipments.

(7) *Collections* of past due accounts and adjustment of commercial difficulties in Russia.

(8) *Suggestions* of likely agents and representatives in Russia.

(9) Forwarding of samples and catalogues to interested parties in Russia.

(10) *Information on custom duties.*

(11) *Statistical data* on the import and export trade between Russia and the United States, as well as Russia and other countries.

(12) *Free information* to buyers of American products in Russia. Not only large numbers of merchants, manufacturers and agents in Russia are using this free service, but also many official bodies, like Zemstvos, Government bureaus, etc.

# MANUFACTURERS RECORD

THE MANUFACTURERS RECORD for thirty years has been recognized as a dominant factor in Southern and Southwestern development, and as the leading and most influential industrial and commercial newspaper of this section. It gives thorough, complete attention to the manufacturing, mining, railroad, engineering, contracting, building, general business and financial interests of this section, and its readers comprise the alert, progressive business men in all these lines.

NO one can keep fully informed of the development and activity of the South and Southwest unless he read the MANUFACTURERS RECORD every week. No one can cover the South and Southwest completely except he advertise in it.

THE fact that a thousand leading firms, representing nearly every line of manufacture and business, are constant users of space is ample proof it is a paying advertising medium.

## Important

The system of indexing the contents of this publication has been changed. In all previous editions the numbers following the classifications referred the inquirer to the page number on which the article was classified, while the system adopted for indexing the contents for this and future editions, is so numbered that they refer direct to the classification, consequently the page numbers of the book have no connection whatever with the numbers used in the index of contents. With this system there should be no difficulty in locating the manufacturers of any article listed in our Register.

## ADVERTISERS' INDEX AND BRANCH OFFICES, END OF BOOK

NOTE—The numerous references which follow many of the headings are inserted for the purpose of guiding those who consult this book to the various branches of business connected with such headings and a little study of them will often result in finding names that at first glance appear to be omitted.

Many of the names listed under the classifications to which this Index refers are followed by detail matter, titles of identification, trade names, etc. This information is invaluable to buyers, and it should be closely observed, as it is a special feature of the work.

We earnestly hope that all new firms connected with the Manufacturing and Construction Industries will send us their business cards and thus aid us in maintaining the high standard of excellence to which the work has aspired.

# Engineering & Contracting

**Devoted to the Economics of Civil Engineering Design and Construction**

**Published Every Wednesday in Chicago** **Subscription $2.00 a Year**

¶ This periodical covers the whole field of Civil Engineering, making a specialty of recording the methods used in all kinds of engineering construction and of setting down in detail the costs incurred by these methods.

¶ The contents average each week about 30 pages of matter of this character and also 20 pages of contract news relating to work of more than local importance, to let or in prospect in all parts of the country.

¶ The character of the reading pages insures the maintenance of a large list of interested subscribers who are mainly engineers on construction work and general contractors.

¶ Its readers are the men who specify and who actually purchase the supplies and equipment used.

# Plants and Apparatus for Chemical Industries

We manufacture apparatus, complete, for plants for many chemical industries, using improved and efficient processes and construction. Among these industries are the following:

**ACETIC ACID** **SULPHURIC ETHER** **WOOD ALCOHOL**
**LACTIC ACID** **TANNIN EXTRACT** **OXALIC ACID**
**ACETONE** **WOOD DISTILLATION** **CREOSOTE, Etc.**

Many plants are using expensive and uneconomical processes and apparatus and do not know it. By combining our Chemical Engineering and Manufacturing Departments we can build up-to-date apparatus working on up-to-date principles.

# LISTS FURNISHED and ENVELOPES, WRAPPERS or CARDS

## ADDRESSED TO ALL CLASSES OF TRADES.

Addressing and mailing is often allowed to remain a most tedious detail in connection with the working of a business. Say you have a list that has to be mailed once a month or oftener, it is more than likely causing you worry and needless expense to have the addressing and mailing done on time.

# You don't have to Pay this man Wages for Burnishing—He's All Balls

## The Abbott Burnishing Process by Means of Steel Balls

EACH Polishing and Buffing Machine you use requires its own operator. On the other hand an Abbott Steel Ball Tumbling Barrel takes the place of SEVERAL Polishing and Buffing Machines. And it requires practically none of an operator's time.

The articles to be polished and the steel balls together with a soapy mixture are placed in the barrel, the power is turned on and no further attention is required until the job is finished and the contents of the barrel ready to be dumped. IT'S THE BALLS THAT DO THE WORK—NOT THE OPERATOR.

For polishing all kinds of small metal articles in quantities the Abbott Process by means of Steel Balls is the quickest and cheapest way.

Besides, it gives better results, as none of the surface of the metal is removed by steel balls. They rub over the surface of the piece, burnishing and hardening it.

We sell either the Barrel and the Balls complete or the Balls alone. Send for our booklet.
